

Content Roadmap H2 2025

Commissioning, Release & Genre Strategy — July through December 2025

Document Type:	Content Strategy Document
Prepared:	April 20, 2025
Authors:	Content Strategy & Acquisition Team
Version:	1.0
Classification:	CONFIDENTIAL — Internal Use Only

1. Strategic Context

This roadmap sets StreamVault's content priorities for the second half of 2025. It is informed by Q1 performance data, audience segmentation analysis, competitive landscape research, and genre trend modelling. The overarching goal is to sustain the viewership momentum built in Q1 while diversifying the genre portfolio and reducing concentration risk in Sci-Fi.

Guiding principle: Commission for completion rate, not just opening weekend views. Titles with completion rates above 78% generate 2.4x more rewatch revenue and 3.1x higher subscriber retention impact than titles below 60%.

2. Genre Strategy H2 2025

Genre	H1 2025 Status	H2 2025 Priority	Target # Releases	Investment Level
Sci-Fi	Leading (+24.1% YoY)	SUSTAIN	3	High (\$45–65M/title)
Drama	Strong (+8.4% YoY)	GROW	4	Medium (\$38–55M/title)
Action	Healthy (+11.8% YoY)	SUSTAIN	3	High (\$65–80M/title)
Thriller	Stable (+5.2% YoY)	GROW	3	Medium (\$28–40M/title)
Documentary	Niche (+3.3% YoY)	PILOT	2	Low (\$6–12M/title)
Romance	Declining (-2.1% YoY)	REVIEW	1	Low (\$18–25M/title)
Comedy	Underperforming (-14.7%)	PAUSE	0	On hold — QA audit required

Comedy commissioning is paused for H2 2025 pending a full content quality audit (see Policy Guidelines, Section 4). No new Comedy titles will enter production until the audit is complete and remediation actions are signed off by the Chief Content Officer.

3. Planned Release Calendar — H2 2025

4. Franchise & Sequel Opportunities

Based on viewership, completion, and social sentiment data, the following existing titles have been identified as candidates for franchise development:

Stellar Run

4.5/5.0 rating, 88.2% completion, 19% rewatch rate — strongest franchise case in StreamVault history. Greenlight sequel development immediately. Target 2026 release. Expand universe with a companion short-form series.

Last Kingdom

4.4/5.0 rating, 79.8% completion. Strong Drama audience with repeat engagement. A Season 2 format is preferable to a feature sequel given the serialised narrative. Target H1 2026 series commission.

The Hollow Men

4.0/5.0 rating, 73.1% completion and a strong Thriller core. Prequel concept pitched by the original director. Low-risk, medium-return proposition. Commission script development in H2 2025.

5. Regional Content Pilot

Given that India accounts for 58% of global views and Mumbai/Delhi rank as the top two cities by engagement, the Content Strategy team recommends piloting **one Hindi-language Drama** for H2 2025. Provisional parameters are outlined below.

Parameter	Detail
Working Title	Untitled Mumbai Drama (UMD-1)
Language	Hindi (with English subtitles)
Genre	Drama — Urban / Social
Target Market	India primary; South Asian diaspora secondary (UK, USA, Canada)
Budget Range	\$8M–\$14M (below standard Drama budget given risk profile)
Target Release	November 2025 (aligns with Diwali streaming peak)
Success Metric	Completion rate >= 72%, Rating >= 4.0/5.0
Decision Gate	Greenlight by June 15, 2025 — requires CCO sign-off

This roadmap is a living document and will be updated monthly. All release dates are subject to production milestones and market conditions. Distribution rights and territorial licensing are managed separately by the Legal & Business Affairs team.
